Jeffrey.....

Didn't want one more minute to go by without reaching out and telling you what a FANTASTIC JOB you and your company did in my home. Unbelievable. I am thrilled!!

For openers, the attention to detail with not just measurements, but taking the time to find out what we wanted and how we wanted to use our storage spaces, starts the relationship out on the perfect footing.

Then the choices of colors, styles, and options immediately let us know this would be exactly as we dreamed it....i.e.....no "settling" for something that **almost** hits the mark.

Your installation crews (and I think we had 3 different guys for the 3 different areas) were polite, clean, efficient, and obviously very skilled at what they do.

And with all of that good stuff in the process, I could tell before they even neared completion that it would be perfect upon completion....and it is.

Kathy and I are thrilled with end results, and will do our very best professionally and personally to spread the word.

Again....thank you so much for such a perfectly-executed and tremendous job.

Have a great weekend.

Regards  
John
